[熱熔膠優點] Advantages of Hot Melt Adhesive Film

熱熔膠為環保無毒的接著劑，使用在需與肌膚長時間接觸的貼身物品，不會對人體產生危害，且不含水與有機溶劑，所以擁有100%的固成分，且在加工製程中，不會揮發產生有害物質；無廢水廢氣排放的問題，貼合製程中完全為無毒無味。

Hot Melt Adhesive(HMA), which is an eco-friendly & non-toxic adhesive, is widely applied in underclothes that are taken with human skin for a long time and will not cause any harmful on human being.

HMA is 100 percent solid content with no liquid and non organic solvent. Don't evaporate hazardous and noxious substances in the manufacturing Process.

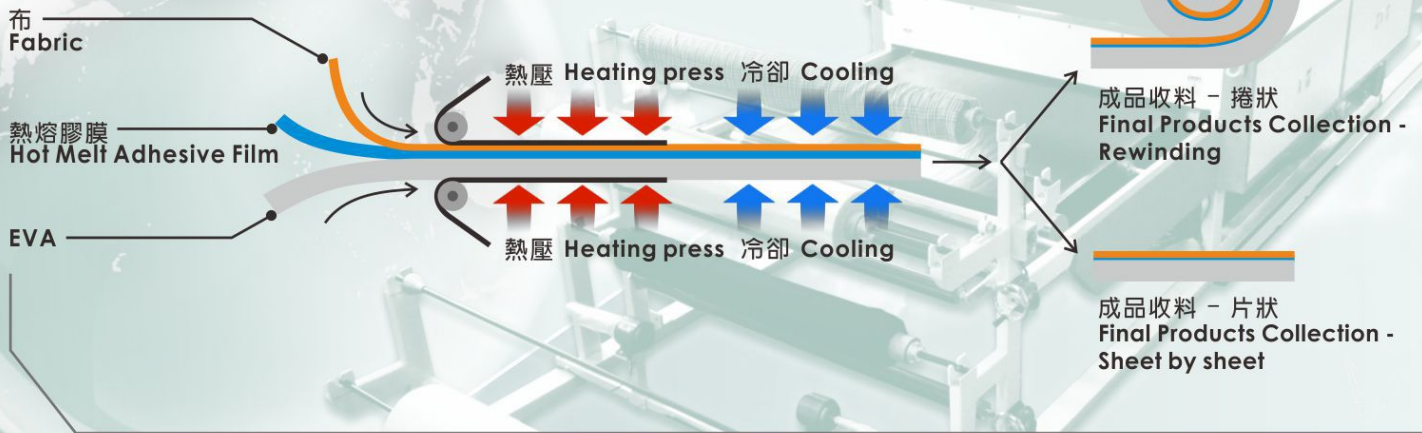

In the laminating process, you don't need to worry about liquid waste and exhaust gas problems because HAM is non-toxic and no bad odor.

We can make its size and working width according to clients' demands.

可依客戶需求量身訂做尺寸及作業寬度
